INTRODUCTION

Articles that appear in the Journal of American Indian Education (JAIE), Vol. 1 No. 1 (June 1961) through Vol. 8 No. 1 (October 1968), inclusive, are annotated in this index. Later issues of the journals are indexed in Current Index to Journals in Education (CIJE).^{*} Therefore, this index and issues of CIJE provide complete indices for JAIE. All articles are indexed, but items such as poems, book reviews, letters to the editor, editorials, announcement bulletins, and schedules of events have been excluded.

The publication is divided into three parts: 1) annotations listed in order of appearance in JAIE by volume, number, and page; 2) author index; and 3) subject index. Terms for the subject index were chosen from the Thesaurus of ERIC Descriptors, under the rules for descriptive cataloging in the ERIC system. However, the term "American Indians" has not been used since it would be descriptive of every article cited.

Each annotation is arranged in the following manner: bibliographic citation, descriptors, identifiers (when needed), annotation. The subject index in the back consists of those descriptors and identifiers which have asterisks.

The Journal of American Indian Education is published in January, May, and October of each year by:

Indian Education Center
College of Education
Arizona State University
Tempe, Arizona 85281

Subscription price is \$3.50 per year. Copies of articles annotated in this index are available for 10¢ per page from the Indian Education Center at the above address. Check or money order must accompany orders; make them payable to Bureau of Educational Research, ASU.
